

Strawberry Santa Hats

Strawberries

Tiny marshmallows

Bananas, sliced about 3/4 inch thick

Toothpicks

For best looking hats, select strawberries that are the same diameter as the banana slices.

Slide a tiny marshmallows onto the tips of some toothpicks. This is the hat's pompom. Next slide a strawberry onto each toothpick, so that the narrow end touches the tiny marshmallow. This is the hat. Then slide a disc of banana onto the toothpicks, below the strawberry. This is the hat's furry trim.

Tip: It's best to do all of the marshmallows first, so that the juice from the strawberries on your fingertips doesn't discolor them.

Also, don't make these too far in advance, or the bananas will brown.
